

***Paths to Deep Decarbonization of the Power Grid***

*organized by Cris Moore (SFI), Jessika Trancik (MIT; SFI), Paul Hines (University of Vermont; SFI), Seth Blumsack (Penn State University; SFI)*

February 26-28, 2020

**Participants:**

Kathy Araujo, Stony Brook University  
Ines Azevedo, Stanford University  
Russell Bent, Los Alamos National Laboratory  
Seth Blumsack, Pennsylvania State University  
Patrick Brown, Massachusetts Institute of Technology  
Martha Cather, New Mexico Institute of Mining and Technology  
Morgan Edwards, Massachusetts Institute of Technology  
Jon Hawkins, PNM Resources  
Paul Hines, University of Vermont  
Goksin Kavlak, Massachusetts Institute of Technology  
Daniel Klein, Twenty-First Strategies  
Joseph Merlino, Purpose Networks  
Cris Moore, Santa Fe Institute  
Mark O'Malley, National Renewable Energy Laboratory  
Howard Passell, Sandia National Laboratories  
Dalia Patino-Echeverri, Duke University  
Leah Stokes, University of California, Santa Barbara  
Jessika Trancik, Massachusetts Institute of Technology  
Micah Ziegler, Massachusetts Institute of Technology
