

MARCUS WILLIAM FELDMAN

Personal

Born: November 14, 1942, Perth, Australia
Married: 3 children
Citizenship: U.S. (Naturalized, San Jose, CA, June 1994)

Education

1959: Matriculation, University of Western Australia
1964: B.Sc. (honors), University of Western Australia, Perth, Australia
Majors: Mathematics and Statistics
Degree completed 1963, awarded 1964.
1966: M.Sc., Department of Mathematics, Monash University, Victoria, Australia Degree completed 1965, awarded 1966.
1969: Ph.D., Stanford University, Stanford, California
Graduate Division Special Program, Mathematical Biology
Committee: Professors S. Karlin, W. Bodmer, J. McGregor, D. Regnery.
Dissertation: Some Topics in Theoretical Population Genetics

Honors and Prizes

1. Government Exhibition (1959)
2. Commonwealth (of Australia) Scholarship (1959)
3. Colonial Sugar Refining Company Scholarship (1959)
4. Monash University Research Scholarship (1964)
5. Research Development Fund Grant, Stanford University (1973)
6. Mellon Junior Faculty Leave (1973-74)
7. J.S. Guggenheim Fellowship (1976-77)
8. Fellow, Center for Advanced Study in the Behavioral Sciences, Stanford, 1983-84
9. Elected Fellow, American Association for the Advancement of Science, 1986
10. Elected Fellow, American Academy of Arts and Sciences, 1987
11. Elected Fellow, California Academy of Sciences, 1996–
12. Jacob Marschak Lecturer, UCLA, November 1998, May 2002
13. China Population Study Award, 1998: Best paper previous four years
14. First Gifford Lecturer in Population Studies, Stanford 2000
15. Burrows Wellcome Lecturer, Princeton University, April 2002
16. Honorary Professor, Beijing Normal University, 2002–2007
17. “Paper of the Year 2002/2003,” *The Lancet* (bibliography number 294)
18. Doctor Philosophiae Honoris Causa, Hebrew University Jerusalem, June 2005

19. Honorary Professor, Xi'an Jiaotong University, 2005–
20. S. Ulam Lecturer, Santa Fe, 2005
21. Doctor Philosophiae Honoris Causa, Tel-Aviv University, Tel Aviv, May 2010
22. Dan David laureate, 2011
23. Elected member, American Philosophical Society, 2011
24. Elected member, National Academy of Sciences, 2013
25. Norman Giles Distinguished Lecturer, University of Georgia, 2015
26. Kimura Motoo Award in Human Evolution, 2016
27. Alumni lifetime achievement award, University of Western Australia, Faculty of Engineering, Computer Science and Mathematics, 2016
28. Allan V. Cox Medal for Fostering Undergraduate Research at Stanford, 2017

Positions Held

1960–1963	Assistant Chemical Analyst and Operations Researcher, Colonial Sugar Refining Company, Australia (vacation)
1963–1964	Programmer-Analyst, IBM Australia
1964–1965	Tutor in Mathematics and Statistics, Monash University, Australia
1965–1967	Teaching Assistant, courses in Mathematical Biology, Stanford University
1965–1969	Research Assistant for Professor S. Karlin, Department of Mathematics, Stanford University
Fall 1968	Visiting Research Assistant, Mathematics Research Center, U.S. Army, University of Wisconsin
1969–1970	Acting Assistant Professor, Department of Biology, Stanford University
1970–1971	Lecturer, Department of Mathematics, La Trobe University, Bundoora, Victoria, Australia
1971	January, February. Visiting Research Scientist, Weizmann Institute of Science, Rehovot, Israel
1971–1974	Assistant Professor, Department of Biological Sciences, Stanford University
1973	April, May. Visiting Senior Fellow, Department of Biology, University of Chicago
1974–1977	Associate Professor, Department of Biological Sciences, Stanford University
1976–1977	J.S. Guggenheim Fellow
1977–	Professor, Department of Biological Sciences, Stanford University
1978–1982	Associate Chairman, Department of Biological Sciences, Stanford University
1983	February-June. Visiting Professor of Statistics, Tel Aviv University
1983–1984	Fellow, Center for Advanced Studies in the Behavioral Sciences

1986–1993	Clifford G. Morrison Professor in Population and Resource Studies, Stanford
1986–	Director, Morrison Institute for Population and Resource Studies, Stanford
1993–	Burnet C. and Mildred Finley Wohlford Professor of Biological Sciences
1997–2003	Co-director, Center for Computational Genetics and Biological Modeling, Stanford
1998–1999	Sackler Scholar, Mortimer and Raymond Sackler Institute for Advanced Studies, Tel Aviv, Israel
1999–2000	Lady Davis Scholar, Hebrew University School of Agriculture, Rehovoth, Israel
2005–	Director, Center for Complexity Studies, Xi'an Jiaotong University, Xi'an, China
2013–	Co-director, Stanford Center for Computation, Evolutionary and Human Genomics

Other Professional Activities

1971–2012	Managing Editor, THEORETICAL POPULATION BIOLOGY (Academic Press)
1975–1976	Member NIH Genetics Study Section (ad hoc)
1976–1979	Member NIH Genetics Study Section
1980–1982	Chairman, NIH Genetics Study Section
1984–1990	Editor, AMERICAN NATURALIST
1984–2006	Member, Board of Trustees, Santa Fe Institute
1985–1989	Member, Appointments and Promotions Committee, School of Humanities and Sciences, Stanford University
1987–2010	Member, Science Board and Science Steering Committee, Santa Fe Institute
1988–1989	Member, External Review Committee for Biology Departments, University of Chicago
1989–1993	Member, Overseers' Committee, Department of Organismic and Evolutionary Biology, Harvard University
1989–2004	Member, Advisory Committee on Evolutionary Biology, Canadian Institute for Advanced Research
1989–1993	Member, Executive Committee, Institute for International Studies, Stanford
1989–1995	Member, NSF Advisory Committees on Mathematical and Computational Biology
1990–1995	Committee on Mathematics in the Life Sciences (Amer. Math. Society)
1990–1997	Member, Editorial Board, Biomathematics Series (Springer-Verlag)
1992–	Member, International Executive Committee, Human Genome Diversity Project

- 1993– Member, North American Committee, Human Genome Diversity Project
- 1993–2003 Member, Executive Committee, Board of Trustees, Santa Fe Institute
- 1994–1998 Member, Advisory Board, MIT Consortium on Global Environment and Sustainable Development
- 1995–1998 Elected Council Delegate, AAAS Section on Biological Sciences
- 1995–2003 Associate Editor, COMPLEXITY
- 1996–1998, Co-Chair, Science Steering Committee, Santa Fe Institute
- 2010–2013
- 1996–2001 Member, Advisory Board, Mountain View Research Incorporated
- 1997–2005 Member, International Board, Institute of Evolution at the University of Haifa, Israel
- 1998–2006 Associate Editor, Wiley Series in Mathematical and Computational Biology (John Wiley, Publisher)
- 1998–2008 Associate Editor, GENETICS
- 1998–2001 Section Editor, Genetics, Behavior and Society. International Encyclopedia of the Social and Behavioral Sciences
- 1998–2001 Section Co-editor, Evolutionary Sciences. International Encyclopedia of the Social and Behavioral Sciences
- 1998–2014 Member, Scientific Board, Institute for Medical Biomathematics, Israel
- 2000–2004 Member, National Research Council Committee: Frontiers at the Interface of Computing and Biology
- 2001– Editorial Board, ANNALS OF HUMAN BIOLOGY
- 2002– Editorial Board, HUMAN GENOMICS
- 2003–2009 Editorial Board, ANNALS OF HUMAN GENETICS
- 2004–2009 Academic Director, Bridging the Rift Foundation (promoting and organizing scientific collaborations between Israelis and Jordanians).
- 2007–2017 Member, Scientific Advisory Board, 23andMe
- 2007– Member, Selection Committee, Rothschild Foundation Isarel Postdoctoral Fellowships
- 2008–2009 Chair, Yeshaya Horowitz Foundation review committee, Israel
- 2009–2016 Member, Human Genetics Foundation advisory board, Italy
- 2010–2014 Co-Chair, Science Board, Santa Fe Institute
- 2010–2016 NAS Committee on Science, Technology and Law
- 2017– Member, Scientific Advisory Board, Steinhardt Museum of Natural History, Tel Aviv University

Research and Publications

1966

1. Feldman, M.W. On the offspring number distribution in a genetic population. *J. Appl. Prob.* **3**: 129–141.

1968

2. Karlin, S. and M.W. Feldman. Analysis of models with homozygote \otimes heterozygote matings. *Genetics* **39**: 105–116.
3. Karlin, S. and M.W. Feldman. Further analysis of negative assortative mating. *Genetics* **39**: 117–136.

1969

4. Feldman, M.W., M. Nabholz, and W.F. Bodmer. Evolution of the Rh polymorphism: A model for the interaction of incompatibility, reproductive compensation, and heterozygote advantage. *American Journal of Human Genetics* **21**: 171–193.
5. Feldman, M.W. Some topics on theoretical population genetics. Ph.D. Thesis, Stanford University.
6. Karlin, S. and M.W. Feldman. Linkage and selection: New equilibrium properties of the two-locus symmetric viability model. *Proc. Natl. Acad. Sci. USA* **62**: 70–74.

1970

7. Karlin, S. and M.W. Feldman. Linkage and selection: Two locus symmetric viability model. *Theor. Pop. Biol.* **1**: 39–71.
8. Karlin, S. and M.W. Feldman. Convergence to equilibrium of the two locus additive viability model. *J. Appl. Prob.* **7**: 262–271.
9. Feldman, M.W. and J.F. Crow. On quasilinkage equilibrium and the fundamental theorem of natural selection. *Theor. Pop. Biol.* **1**: 371–391.
10. Eshel, I. and M.W. Feldman. On the evolutionary effect of recombination. *Theor. Pop. Biol.* **1**: 88–100.
11. Feldman, M. W. Book Review: Into the Ecology Breach: “An Introduction to Mathematical Ecology” by E. C. Pielou. *Science* **169**: 43–44.

1971

12. Feldman, M.W. Equilibrium studies of two locus haploid populations with recombination. *Theor. Pop. Biol.* **2**: 299–317.
13. Feldman, M.W. and S. Karlin. The evolution of dominance: A direct approach through the theory of linkage and selection. *Theor. Pop. Biol.* **2**: 482–492.

1972

14. Karlin, S. and M.W. Feldman. Mathematical genetics: A hybrid seed for educators to sow. *Int. J. Math. Educ. Sci. Technol.* **3**: 169–189.
15. Feldman, M.W. Selection for linkage modification: I. Random mating populations. *Theor. Pop. Biol.* **3**: 324–346.
16. Nei, M. and M.W. Feldman. Identity of genes by descent within and between populations under mutation and migration pressures. *Theor. Pop. Biol.* **3**: 460–465.
17. Feldman, M.W. and B. Balkau. Some results in the theory of three gene loci. pp. 357–384. In T.N.E. Greville (ed.) *Population Dynamics*. Academic Press, New York.

1973

18. Hillel, J., M.W. Feldman, and G. Simchen. Mating systems and population structure in two closely related species of the wheat group. I. Variation between and within populations. *Heredity* **30**: 141–167.
19. Hillel, J., G. Simchen and M.W. Feldman. Mating systems and population structure in two closely related species of the wheat group. II. Environmental factors and population structure. *Heredity* **30**: 73–83.
20. Hillel, J., M.W. Feldman, and G. Simchen. Mating systems and population structure in two closely related species of the wheat group. III. Chiasma frequency and population structure. *Heredity* **31**: 1–9.
21. Cavalli-Sforza, L. and M.W. Feldman. Models for cultural inheritance. I. Group mean and within group variation. *Theor. Pop. Biol.* **4**: 42–55.
